Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is in response to the April 9, 2004.

Specification

1. The substitute specification filed May 6, 2002 has not been entered because it does not conform to 37 CFR 1.125(b) and (c) because: it does not contain the statement as to a lack of new matter under 37 CFR 1.125 and the applicant does not provide a clean copy of the substitute specification reflecting the changes in the mark-up copy.
2. The amendment filed May 6, 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: There are several instances of new matter introduced into the substitute specification: such as the discussion of the prior art references (page 2), the option of the platen having a curvilinear surface on one or both sides (page 6), the inner beveled surfaces immediately forward of the Light Diffusing Screens having a light reflective coating (page 7), screen contiguous to back of Platen or the screen as the platen (page 8). New matter was also noted on page 9, 10, 11, and 12.

Applicant is required to cancel the new matter in the reply to this Office Action.

Double Patenting

3. Claim 10 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 8. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

4. Applicant is advised that should claim 8 be found allowable, claim 10 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 2, 4, 6, and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. In claim 2, the phrase "or any other such display device" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by ""or any other such display device", thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

8. In claim 4, line 2, it is unclear if the "lightbox" is the same as the "lightbox means" recited in claim 1.

9. In claim 6 the phrase "commercial light sources of any category or number or combination" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "of any category or number or combination"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

10. In claim 9, line 7, it is unclear if the "platen means" is the same as the "display platen means" recited claim 8.

Claim Rejections - 35 USC § 102

11. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

12. Claims 1, 2, 8-11, 12, 13, 14, and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Arnold, U. S. Patent 3,680,238. Arnold teaches an illuminated sign comprising a housing 47, a transparent layer 16, a display layer 20, and a translucent diffuser layer 24. Arnold also teaches a plurality of lights 78 and 102 within the housing and vent holes at 62 and 63. In addition, Arnold teaches a tapered housing, wherein the cross-section of the housing decreases from front to back. (See figure 9).

Allowable Subject Matter

13. Claims 3, 5, 7, and 16-19 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

14. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
